

Core Strategy Update

Cllr. Nike and the Clerk attended the final session of the Core Strategy Public Enquiry where the main modifications were laid out. The following information was copied from Pendle's website.

The Council is now preparing Schedules of Main and Additional Modifications to the submitted plan. The Main Modifications will be subject to a six week public consultation in due course. Further details of the consultation will be posted on Pendle borough Council's webpage - so please check for future updates.

In the meantime no further representations, information or evidence should be submitted, unless specifically requested by the Inspector; any unsolicited material may be returned.

Following the consultation on the Modifications the Inspector will consider any representations and finalise his report. Key dates for the remainder of the Examination will be provided in due course.

Prior to the meeting the Clerk spoke to the Council's Planning Consultant and it was thought not necessary for her to attend the last session of the inquiry but to participate in formulating the Council's response to this final consultation. The cost for this work will be £60.00 per hour, the consultation will probably start towards the end of May.
